

Macmillan Coffee Day at The Haven-Thursday 20th October 2022

In Autumn One the sixth form students taking BTEC Vocational Studies completed the unit 'Running an Event'. They planned, organised and hosted a fantastic Macmillan Coffee Day for students, staff and their parents and carers to enjoy.

During their Life Skills sessions, they baked a variety of delicious cakes for the event. In their Vocational Studies lessons they designed posters advertising the event, created menus, decided on costings for food and drinks being sold and created their own fund raising activities for people to have a go on at the event.

The activities included a chocolate raffle, 'Guess the Number of Sweets in a Jar' and 'Guess the Name of the Animal'.

All of the Vocational Studies students had a job role on the day and their superb efforts raised £140 for the Macmillan Cancer Charity. Well done to all of the students for helping to run this event and raise this amount of money! Thank you to pupils, staff, parents and carers for their generous contributions and supporting this day at The Haven.
