

ART- SPRING ONE- Animals

Through this unit both KS3 and KS4 students will be developing their observations and creative skills through drawing and creating a collage. Recording builds on skills and different recording techniques, in this case students are focusing on pencil tone. Adaptation will be addressed through composition of the animal images the students are drawing from. Pupils will also be researching 3 artists that use collage techniques within their own practice. Students will then be exploring a collage technique using resources from newspapers to magazines.

For their final outcome students will demonstrate their collage techniques relating to the drawing they created previously and work in the style of one of the artists using the skills learnt through their research.

By the end of this unit students should be able to:

- Name the Art formal elements
- Describe what is pencil tone
- Name the techniques used to create a collage
- Articulate their knowledge on the three artists they have researched
- Describe and explain how to use the resources effectively such as watercolours.
