

# Art Curriculum Pathway Summer term 1

KS3/KS4/KS5

Throughout the first summer term, students will be researching an artist of their choice, gathering information on the artist's background, what type of art they create and what materials they use. Students will then plan and create a final piece inspired by this particular artist and will write an evaluation about their work.

Once students have completed their artist inspired final pieces, they will then be given a list of 'themes' to create a piece on, using their imagination and initiative to create these pieces.

The aim for this term is to fill our new display board in the art room with the students' amazing work!
